S1

1200W 1/32

www.zallys.com

A 4 wheel man on board electric powered propulsion vehicle. S1 make it easier when moving and transport personnel, merchandise, in case of maintenance and inspection inside industries, airports, warehouses, greenhouses, markets.

S1 has an incredible versatility of application in almost every field and on different types of ground. It is equipped as standard with two types of brake systems: electric lever and mechanical by a pedal for the total safety at full load.

The multi-purpose platform in the back of the vehicle can be easily accessed from the driving seat and it is adaptable to apply the standard accessories or special customisations.

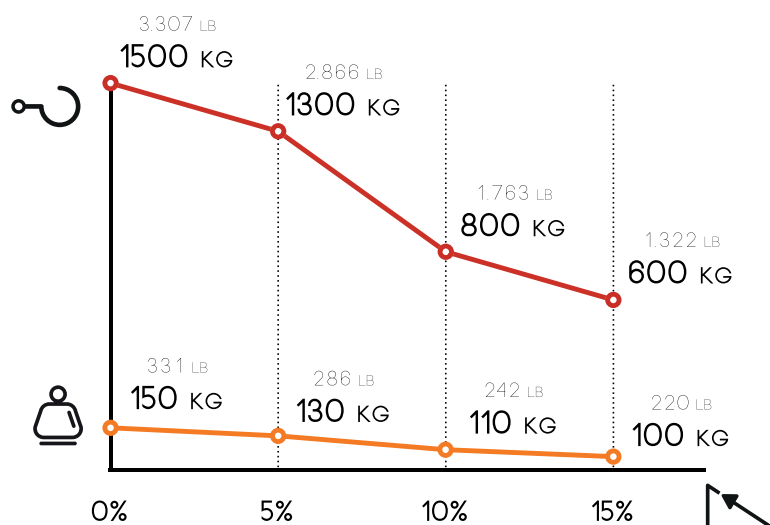

S1 offers the driver stability and a great control up to 8 hour on flat ground. It can load up to 150 Kg / 331 lbs and tow wheeled loads up to 1500 Kg / 3.307 lbs. It is equipped with a pressure sensor under the seat that allows the vehicle to function only in the presence of a man on board.

The gears in oil bath avoid any kind of maintenance.

Our electric vehicles are not only CE certified but, more than 80% of the range is covered by the UL certification, which guarantees its suitability to the standards applicable in relation to potential risk of fire, electric shock and mechanical hazards.
